DETAILED ACTION

Claims 1-11 are pending in the application.

Claim Objections

The claims 1-6 are objected because of the phrase "Composition" instead of "A composition". Clarification is requested.

The claim 7 is objected because of the phrase "Mixture" instead of "A mixture". Clarification is requested.

The claims 8-11 are objected because of the phrase "Method" instead of "A Method". Clarification is requested.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Bartlett, {US 3,839,425}

Applicants' claim a composition comprising an organic or aqueous liquid having dissolved or dispersed therein a mixture of fluorinated polyether of the general formula I;

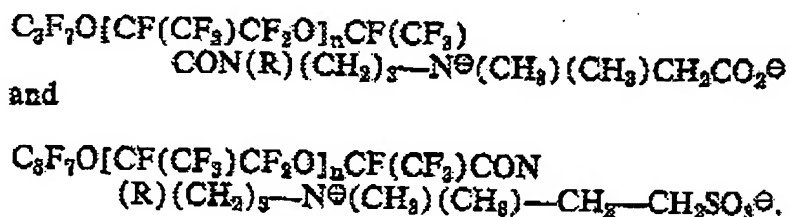

formula I

Art Unit: 1621

wherein all the variables are as defined in the claims.

Bartlett discloses an aqueous fire extinguishing composition of fluorinated polyether compounds shown below. See columns 7 and 8, examples 22-24.

Examiner notes that applicant recites the weight average molecular weight of the claim composition while Bartlett is silent about this physical property of the fluorinated polyether. However, there is nothing in record that clearly indicates that the fluorinated polyether of Bartlett does not have weight average molecular weight between 750 g/mol and 5000 g/mol.

No claim is allowed.
